“I really liked having someone come to the house instead of having to try to transport to an office with other animals.”

My experience with mobile vet was amazing and wonderful. I called mobile vet because I needed help with one of my cats, whom was sick and dying. She was our daughter and we tried everything to help her with what we had. However we couldn't do more. So when we found mobile vet online we thought we would give it a try. And when we spoke to the mobile vets wife, we explained our situation. We are poor people. But we don't like to leave debts. We promised to pay debt to them and we did pay our debt to them which was very very very very important for us because people never cut us any slack and assume that we won't pay. Etheir way we paid our debt. In return the mobile vet put our daughter to rest. Put her to sleep; she had cancerous tumors inside her. We were distraught, and had no sleep because we had been keeping such a close eye on her. But we saw in our daughters eyes that she was ready to cross over to the other side. So all we could do was try to make her comfortable. When the mobile vet came in to my home, he brought with him, everything needed to examine her. Both the vet

and his wife were very accommodating. They were understanding and nice. The vet was also very informative walking me through what he was doing step by step, letting me know what he was going to do before he was going to do it. I appreciated everything the mobile vet and his wife did that day. I held my daughter as he injected her with medicine to relax her first. And it was that medicine that helped her relax that sent her to the door towards the rainbow bridge. I started to feel her slip away. And as the mobile vet told me he was going to give her the last injection, he proceeded. He barley finished injecting her with the last medicine, when I felt her leave her body. But she left peacefully without pain or struggle. The mobile vet allowed me time to mourn her and hold her before they took her for me. So my experience with mobile vet was wonderful and amazing because they gave my daughter my cat a way to pass on peacefully. They also took care of her for me. They also let me pay them in a fair manner and that was helpful as well. Thank you mobile vet. I plan on seeking you out for future appointments. You're the best. You treated me with respect and kindness, with compassion and understanding, and thats all I could have asked for. Thank you I appreciate everything you both did for me that day, especially squeezing me in on that day, because you guys had a busy day.
Sincerely Alexio

I am sure Dr. Sidorsky is an excellent vet. Thus far he has only administered shots, drawn blood and conducted exams for my dogs. Unfortunately, his rates are close to double that of a more local vet I have used. The benefit of having him come to my home to see my 10 dogs is huge and I have no problem at all with the \$75 farm visit. But the Lyme Vaccine, for example, is \$44.50 in comparison to \$25.50 at the more local vet. Likewise, a physical exam jumped to \$75 merely because I mentioned a concern about the dog, yet it required no additional steps taken. In all honesty, I have to step back and reconsider my plan when a home visit for 5 Lyme shots and 2 rabies certificates and a blood test amounts to well over \$800. I would like to continue with Mobile Vet of Western Ma. but I am feeling uncomfortable because it is not within my price range. Thanks for asking!

“Having our vet coming to the house has tremendously helped my old cat who hates traveling by car. My cat can received the care he needs in a more relaxed environment.”

Nancy Reviewed on March 7 2017

“The best vet experience I have ever had for my kitties. From the first call I made through the home visit, my expectations were exceeded. Knowledgeable, kind, and super kitty-friendly. I will never go back to old school vet stress on my purrballs and on me.”

“My 17 yr old cat had too many negative experiences when I transported him to a vet's office. Things are different now since Robert comes to the house! Both my cat and I are less stressed for which we're both grateful.”

Ann Marie Reviewed on November 28 2016

“I used Mobile Vet for the first time and it's great. No stress on me to get the cat in the carrier and the car and no stress on the cat; so we're both happy.”

Joanne R Reviewed on November 25 2016

“I love and appreciate the mobile vet services provided by Dr. Sidorsky. He is a wonderful caring doctor. I like the fact that I don't have to manage handling multiple dogs at a vet office. The home visits are convenient and stress free. I highly recommend Dr. Sidorsky.”

“You and your wife came to our home to help us say goodbye to our 8 year old GS suffering with ALS /disease in dogs....you both were compassionate and professional allowing us time to say goodbye to our friend and let him pass with dignity and comfort surrounded by his family in his home.....I was so grateful that this service is available....it was like stepping back in time when the vet came to your home like in all creatures great and small....especially when saying good bye. We did not have to stress our dog with the anxiety of going to the vet. I have recommended you often! Thank you again”
